OUR PROMISE

Peace of mind when power failure is not an option. We are backed by over forty years of excellence and the industry's best warranty and support.

OUR MISSION

Minuteman exists to provide power to people when they need it most.

FLEXIBILITY

Supporting you and your customer's needs through flexible, tailored solutions.

RELIABILITY

Providing reliably superior power protection since 1982.

PROTECTION

Protecting your mission-critical devices, regardless of the application.

RESPONSIVE

Serving you and your customers in a prompt and friendly manner.

KEY:

EXR = Extended Runtime

HV = Horizontal / Vertical

HVI = Horizontal/Vertical + IEC Outlets

HVN = Horizontal/Vertical + NEMA Outlets

IEC = International Electrotechnical Commission

HW = Hard Wired

L = Locking

NC = Network Card

NB = No Batteries

NEMA = National Electrical Manufacturers Association

Uninterruptible Power Supplies (UPS)

Complete Protection For Your Equipment, BIG or Small

Standby

The Enspire-G Series offers standby protection, perfect for small-load applications, with a compact profile for desktop, floor, or wall mounting.

Model	VA / Watts	Runtime (mins)
EN450G	450VA/250W	3/11
EN600GU	600VA/330W	2/10
EN750G	750VA/450W	4/12
EN900LGU	900VA/500W	3/11

The Entrust-LG Series is a small but mighty line-interactive mini tower UPS. The versatile form factor allows for seamless integration into any environment.

ETR1000LGU	1000VA/600W	3/12
ETR1350LGU	1350VA/810W	3/12
ETR1500LGU	1500VA/900W	3/12
ETR2000LGU	2000VA/1200W	3/12
ETR550LG	550VA/330W	3/12
ETR850LG	850VA/510W	3/12

Line Interactive

The PRO-RT2U Series offers automatic voltage regulation, connected network management, and versatile configuration options for a range of small to medium load applications.

PRO750RT2U	750VA/525W	5/15
PRO750RT2UNC	750VA/525W	5/15
PRO1000RT2U	1000VA/700W	4/14
PRO1000RT2UNC	1000VA/700W	4/14

Uninterruptible Power Supplies (UPS)

Complete Protection For Your Equipment, BIG or Small

The Minuteman Power SR Series UPS provides reliable power protection and battery backup for IT equipment. Available in a 2U rack/tower format, this line-interactive UPS delivers the most watts possible for efficient support of servers, VoIP phones and professional audio/video systems.

Shallow Rack Series

Model	VA / Watts	Runtime (mins)
SR1000RMLCD	1000VA/600W	3/12
SR1500RMLCD	1500VA/900W	3/12

Line Interactive

The Encompass Series offers two unique form factors and delivers comprehensive protection only offered by a true online UPS. By regenerating the incoming AC signal, through double conversion technology, an online UPS provides an impenetrable "electrical firewall," providing the most fail-safe power protection available.

EC1000RTXL2U	1000VA/900W	2/10
EC1000RTXL2UNC	1000VA/900W	2/10
EC1500RTXL2U	1500VA/1350W	5/15

Applications & Industries

Learn which products will best suit your industry

When power fails, your business doesn't have to. Minuteman Power Technologies delivers industry-leading UPS systems, power distribution, and battery backup solutions that keep your operations running—no matter what. With over 40 years of innovation and the broadest portfolio in the industry—from compact desktop units to enterprise-grade data center protection—Minuteman ensures seamless uptime for every critical application, backed by U.S.-based support and the strongest warranties available.

IT & Network

Network servers, data storage, switches, modems, routers, hubs, and physical security hardware – all need to be protected against outages and damaging power glitches.

Education

Classrooms, labs, sports facilities, and administrative offices are all vulnerable and are guaranteed to be subjected to power problems throughout the year. Critical functions like emergency communications, surveillance systems, and access control must have ample battery back-up time.

Security

A well-designed power protection system prevents security system outages or damage from minor issues. Minuteman's product line is a favorite among users and installers thanks to its tailored solutions, useful features, and incredible value.

Government

Federal agencies, military bases, as well as state and local government offices are not immune from power problems. Protecting assets and personnel is vital. Minuteman provides value-based solutions to protect communications systems, information technology systems, and security systems.

Retail/POS

Ensuring customers have a positive experience is always a high priority. Protecting valuable equipment such as POS terminals, servers, security systems, and anti-theft systems is essential. Minuteman has POS power products that range from small store or hotel solutions, to large-scale, multi-store solutions.

Applications and Industries

Learn which products will best suit your industry

Home Office

Protecting computers, networking equipment, and other essential devices helps prevent downtime that can interrupt work or cause data loss. Minuteman offers compact, dependable power protection solutions designed to keep home offices running smoothly.

Hospitality

Delivering an exceptional guest experience is essential in the hospitality industry. Protecting critical equipment such as reservation systems, door lock networks, security systems, and communication platforms helps ensure smooth, uninterrupted operations

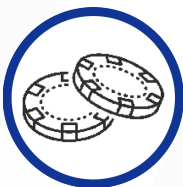

Financial & Banking

Providing secure, reliable operations is vital in the financial and banking sector. Protecting essential systems such as transaction networks, ATMs, servers, and security platforms helps prevent downtime that could disrupt service or compromise data.

Healthcare & Medical

As the healthcare industry advances with cutting-edge technology, maintaining seamless operations is more crucial than ever, making reliable power infrastructure essential to prevent disruptions that could impact safety and efficiency.

Casino & Gaming

Ensuring nonstop gameplay is essential in the casino and gaming industry. Protecting critical gaming systems helps prevent outages that disrupt the player experience and impact revenue. Minuteman provides power protection solutions for gaming environments of any size, from small venues to large resort casinos.

Distributed Antenna Systems

Keeping Distributed Antenna Systems (DAS) powered up and fully protected is not only essential, but most local government entities mandate that a DAS system is fully functional for emergency responders' communications inside a facility – even when power is out.
