

Insert the MMS362 into a utility outlet with the receptacles facing up. Next, connect your devices to the MMS362. Press the red On/Off rocker switch and verify the Red LED is activated. If so, the MMS362 is on and actively protecting your equipment. If off, press the RESET on the rocker switch. If the LED illuminates the MMS362 is operational. If the switch does not illuminate, the MMS362 may have an internal fault or has absorbed a large-enough spike to be damaged and should be replaced.

**DO NOT USE WITH ANY MEDICAL  
OR LIFE SUPPORT EQUIPMENT**

**WARNING:**

**DO NOT USE WITH ANY  
AQUARIUM EQUIPMENT**

# Two-Year Limited Product Warranty

**Model: MMS362P**

Six Outlet  
Home / Office / PC  
Surge Suppressor

**241  
Joules**

## LIMITED WARRANTY

By purchasing a MINUTEMAN Model MMS362P in the United States or Canada, the original end-user consumer purchaser (referred to as the "Initial Customer") receives a Limited Two-Year Warranty.

Limited Warranty: The Initial Customer receives the limited Two-Year warranty explained below (referred to as the "Limited Warranty") for the MINUTEMAN Model MMS362P (referred to as the "Surge Suppressor").

If you are the Initial Customer, you are asked to read the following terms and conditions carefully before using the Surge Suppressor. By using the surge suppressor, you consent to be bound by and become a party to the terms and conditions of the Limited Warranty provided in this document. If you do not agree to the terms and conditions of the Limited Warranty, you should return the surge suppressor for a full refund prior to using it.

MINUTEMAN warrants to you, the Initial Customer, that the surge suppressor will be free from defects in material and workmanship for 2-Years, subject to the terms of this Limited Warranty. This Limited Warranty gives you specific rights, and you may have other rights, which vary from State to State or Province to Province.

This provision shall NOT create any Implied Warranty or Merchantability or of Fitness for a Particular Purpose that would not otherwise apply to the surge suppressor. The Limited Warranty does not cover or apply to: mis-use, modification, operation or storage outside environmental limits of the surge suppressor, a surge suppressor in transit, in shipment, or in storage, improper operation or maintenance, or use with items not designed or intended for use with the surge suppressor. You must contact MINUTEMAN within fifteen (15) days of the failure of the surge suppressor in order to make a warranty claim.

### Exclusive Remedies Under Limited Warranty

Your exclusive remedy and MINUTEMAN's sole obligations are as follows for the surge suppressor:

If (a) the surge suppressor you purchased and still own is defective in material or workmanship under this Limited Warranty or any applicable warranty imposed by law, and (b) all Limited Warranty requirements have been met, MINUTEMAN will repair or replace the Surge Suppressor if it proves to be defective in material or workmanship.

### Making a Limited Warranty Claim

To make a Limited Warranty claim, you must do the following:

1. Provide reasonable proof of purchase (for example, a sales receipt within two-years form date of failure) that establishes you as the Initial Customer (the original end-user consumer purchaser) of the Surge Suppressor.
2. Call MINUTEMAN at (972) 446-7363, or [service@minutemanups.com](mailto:service@minutemanups.com), within FIFTEEN (15) days of the failure of the surge suppressor.
3. When you contact MINUTEMAN, identify the surge suppressor by model number, provide the purchase date, and request Return Materials Authorization (RMA) information from MINUTEMAN.
4. Pack and ship the surge suppressor to MINUTEMAN as instructed in your RMA. Show the RMA number on the shipping label or include it with the surge suppressor. You MUST prepay all shipping costs and you are responsible for packaging and shipment.

MINUTEMAN will inspect and examine the surge suppressor. If the surge suppressor is defective in material or workmanship, MINUTEMAN will repair or replace the surge suppressor and return it to you at MINUTEMAN's expense, or, if MINUTEMAN is unable to or decides not to repair or replace the surge suppressor (if defective) within a reasonable time, MINUTEMAN will refund to you the full purchase price you paid for the surge suppressor (purchase receipt showing price paid is required).

### CONDITIONS COMMON TO THE LIMITED WARRANTY

The Limited Warranty *Does Not Apply* unless The Initial Customer:

1. Has properly connected the surge suppressor and the Connected Equipment to properly wired and grounded outlets (including compliance with electrical and safety codes of the most current electrical code (ANS/NFPA 70), without the use of any adapters, extension cords or other connectors.
2. Has plugged the surge suppressor directly into the power source and must not have "daisy-chained" the surge suppressor together in serial fashion with another surge suppressor, grounding adapter, extension cord, or other surge product. Any such installation voids the Limited Warranty and Connected Equipment Guarantee.
3. Has provided a suitable and proper environment for use and installation of the surge suppressor and Connected Equipment.
4. Has properly installed and operated the surge suppressor and Connected Equipment.
5. Has operated the surge suppressor at all times within the limitations on the surge suppressor's VA capacity as stated in this User Manual.

MINUTEMAN Does Not Cover or Undertake Any Liability in Any Event for Any of the Following:

1. Loss of or damage to data, records, or software, the restoration of data or records, or the reinstallation of software.
2. Damage from causes other than Power Disturbances (as defined below) on an AC Power Line on properly installed, grounded and code-compliant 120-volt power lines in the United States and Canada when properly installed and connected.
3. Damage from fire, flood, wind, rain, rising water, leakage or breakage of plumbing, or abuse, misuse, or alteration of either the surge suppressor or the Connected Equipment.

### Rated Capabilities Limitation

Surge suppressors are designed to eliminate disrupting and damaging effects of momentary (less than 1ms) voltage spikes or impulses from power transients. If it can be shown that a voltage spike lasting longer than 1ms has occurred, the occurrence will be deemed outside the rated capabilities of the surge suppressor and the Limited Warranty is void.

### Exclusion of Consequential and Other Damages

The sole and exclusive remedies of the Initial Customer are those provided by the Limited Warranty. This exclusion of other expressed warranties applies to written and oral expressed warranties. MINUTEMAN UPS excludes any liability for personal injury under the Limited Warranty. MINUTEMAN UPS excludes any liability for direct, indirect, special, incidental or consequential damages, whether for damage to or loss of property, loss of profits, business interruption, loss of information or data. This exclusion applies even though damage or loss is caused by negligence or other fault. NOTE: Some States or Provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you.

### DO NOT USE WITH MEDICAL OR LIFE SUPPORT EQUIPMENT OR OTHER HIGH RISK ACTIVITIES OR WITH AQUARIUMS

MINUTEMAN UPS does not sell the surge suppressor for use in high-risk activities or with aquariums. The surge suppressor is not designed or intended for use in hazardous environments requiring fail-safe performance, including the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, weapons systems, life support or medical applications, or for use in any circumstance in which the failure of the surge suppressor could lead directly to death, personal injury, or severe physical or property damage, or that would affect operation or safety of any medical or life support device (collectively, "High Risk Activities"). MINUTEMAN UPS expressly disclaims any expressed or implied warranty of fitness for High-Risk Activities or with aquariums. MINUTEMAN UPS does not authorize use of any Surge Suppressor in any High-Risk Activities or with Aquariums. ANY SUCH USE IS IMPROPER AND IS A MIS-USE OF A MINUTEMAN UPS SURGE SUPPRESSOR.

The Limited Warranty is governed by the laws of the United States and the State of Texas. Both warranties are without reference to conflict of law principles. The application of the United Nations Convention of Contracts for the International Sale of Goods is expressly excluded.

Contact Information: Para Systems, Inc., 1455 LeMay Dr., Carrollton, TX 75007, (972) 446-7363. Para Systems, Inc. is the warrantor under this Limited Warranty. You may also visit Para Systems, Inc. on the Internet at [www.minutemanups.com](http://www.minutemanups.com).

#### FCC Notice:

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help. Any special accessories needed for compliance must be specified in the instruction.

CAUTION: A shielded-type power cord is required in order to meet FCC emission limits and also to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord be used. Use only shielded cables to connect I/O devices to this equipment.

CAUTION: Any changes or modifications not expressly approved by the guaranteee of this device could void the user's.
