

PLATINUM PROTECTION POLICY

THIS POLICY IS NOT A WARRANTY. REFER TO THE PARA SYSTEMS LIMITED WARRANTY FOR INFORMATION CONCERNING THE WARRANTY FOR YOUR PARA SYSTEMS PRODUCT. THE LIMITATIONS AND CONDITIONS CONTAINED IN THIS POLICY DO NOT AFFECT THE TERMS OF THE WARRANTY.

In the United States and Canada only, for Standard 120, 208, 240 Volt Products¹

The Initial Purchaser of this Para Systems product, ("Product"), is protected, for the lifetime of the product, against certain losses due to AC power line transients for properly connected electronic equipment (referred to as the "Connected Equipment") subject to certain terms and conditions provided below.

This Platinum Protection Policy is not deemed "first dollar" coverage. Para Systems obligation is reduced by any amounts that the Initial Purchaser is entitled to recover, whether recovery is requested or not, from other sources regarding the Connected Equipment, including insurance, other warranty, extended warranty, or legal liability, whether or not the Initial Purchaser makes a claim for recovery including, but not limited to, a claim under any applicable insurance, other warranty, extended warranty, or a legal liability claim.

To be covered under the Platinum Protection Policy: (a) you must notify Para Systems within ten (10) days of the event for which you intend to make the Connected Equipment claim; (b) the Product must have undeniable physical evidence of allowing an AC power line transient that directly and proximately caused the damage; (c) the Connected Equipment must have been damaged by a transient, spike, or surge ("Power Disturbance") on a properly installed, grounded, and National Electric Code, ("NEC"), code-compliant 120, 208,

240-volt AC power line in the United States or Canada, by a Power Disturbance on standard telephone land line or PBX telephone equipment line that is properly installed and connected to an RJ11 port on the Product; or by a Power Disturbance on a standard Local Area Network connection that is properly installed and connected to an RJ45 port on the Product and (d) is directly plugged into, and properly connected to, the Product in its original condition which was properly operated when a Power Disturbance passed through the Product and (i) exhausts the protection capacity of the Product or (ii) damages the Product.

Further, the Platinum Protection Policy does not apply if the Product has been operated in a failure mode or not in compliance with Para Systems' operating instructions in the Product user's manual, or if the Connected Equipment has not been operated in compliance with the instructions and manuals of its manufacturer/vendor.

Para Systems' total liability under this Platinum Protection Policy is limited to the Agreed Damage Amount.

6. Para Systems will evaluate the product to determine its level of functionality, and will examine the product for evidence of damage from AC power-line transients (telephone line,

Local Area Network, or CATV transients, if applicable). (A) If Para Systems' evaluation provides no evidence of damage from power-line transients (telephone line, Local Area Network, or CATV transients, if applicable), Para Systems will send to the Purchaser (i) a report summarizing the tests performed and (ii) a rejection of claim notice. (B) If the Product shows evidence of damage from power-line transients (telephone line, Local Area Network, or CATV transients, if applicable), Para Systems will request that all Connected Equipment for which a Platinum Protection Policy claim has been submitted, be sent for evaluation to either Para Systems or an authorized service center. If it is determined that the Connected Equipment has been damaged from AC power-line transients (telephone line, Local Area Network, or CATV transients, if applicable), Para Systems will, at its discretion, either authorize you to have the equipment repaired or reimburse you for the fair market value³ of the damaged equipment, up to the dollar limits stated above.

if applicable), issue payment to you, in its sole discretion, for either cost of repair or the fair market value of the Connected Equipment, up to the dollar limits stated above.
